

HYDRAFLEX HOLD CLEANING GUN KIT

Designed for cargo hold cleaning on bulk carriers and cargo vessels of all sizes, the Hydraflex Hold Cleaning Gun Kit combines water and compressed air to produce a powerful, tightly focused jet with a reach of up to 30 metres (100 feet). Ideal for the effective wash-down of cargo residues, it is also well suited to a range of general cleaning tasks on steel and concrete structures. Efficient by design, the Hydraflex enables single-operator use—reducing labour requirements, saving time, and lowering overall maintenance costs in demanding marine environments.
